

Activity 2

Where in the world are the Pacific Islands?

Use the world map over the page to complete the following tasks. You can complete this activity individually or talk to someone else. It is up to you and your tutor to decide.

1. Locate and name each of the following Pacific Islands on the world map. The relevant islands have been outlined for you.

- Fiji
- Cook Islands
- Vanuatu
- Samoa
- Tonga
- French Polynesia
- New Caledonia
- Norfolk Island.

2. Locate the International Date Line; highlight the line on the map.

3. Which Islands are east of the International Date Line?

4. Which Islands are west of the International Date Line?

5. Which Island is closest to New Zealand?

6. Locate the equator that divides the Northern and Southern Hemispheres. Mark which is the Northern Hemisphere and which is the Southern. Which Hemisphere are the Pacific Islands in?

7. Which Pacific Island is closest to the Equator?
