

## **National Certificate in Aviation (Core Skills) (Level 3) [Ref 1495]**

The new National Certificate in Aviation (Core Skills) (Level 3) [Ref 1495] was registered on the NQF as of 14 July, 2009. This qualification is designed to provide people with the range of skills and knowledge required within the broad spectrum of organisations operating within the wider aviation industry, and is an excellent training platform for new entrants into the industry.

This qualification is designed for use in a Tertiary Provider setting, but may also be used within the workplace. Visit the NZQA website to find out more information.
